Author

Abdel-Malek, M E Human resources development through education and training 138
Barnett, M Role of the merchant banker in projects 197
Benitez Codas, M M Development of project management in Brazil – a historical overview 144
Bernold, L E Automation and robotics in construction: a challenge and a chance for an industry in transition 155
Branton, M A and Butler, T J Project management – a firm foundation 221
Capner, G Major projects: how to get your planning permission 80
Carrier, A Sequential steps in project execution 25
Cavallone, S Auditing large plant engineering projects 39
Cavallone, S Engineering in Italy 86
Chaney, A R Financial guarantees 231
Cockerill, H Maintenance considerations for new plant 71
Epling, J A Best alternative to international construction dispute resolution 217
Fiedler, K Special conditions for time scheduling of building modernization process 35
Franke, A Risk analysis in project management 29
Giege, T and Selin, G Evaluation of a plant reconstruction and extension project 135
Harhalakis, G, Davies, B J and Manzoor, T Generalized algorithm for the time analysis of summary activities 11
Herring, B E and Murphy, L C Recursive relation using the critical path to perform time–cost trade-offs 177
Knoepfel, H and Burger, R Project organization and contract management 204
Laufer, A Aptitude development of civil engineers for the management of human resources in construction projects 209
Milosevic, D Z Organizing project control systems 76
Morgan, B V Benefits of project management at the front end 102
Muir, I D Importance of revenue cost studies in NHS projects 98
Muspratt, M A Conditions affecting projects in less developed countries 45
Navarre, C and Schaan, J-L International engineering project management: key success factors in a changing industry 238
Palmer, C F Matrix approach to project planning design and management 162
Rawlings, P E Maintenance element of a probabilistic approach to project life cycle costing 149
Riis, J, Thorsteinsson, U and Mikkelsen, H Project management aided by microcomputer 91
Robinson, J Comparison of tendering procedures and contractual arrangements 19
Smith, J U M Expert systems in project management 7
Stuckenbruck, L C and Zomorrodian, A Project management: the promise for developing countries 167
Vinje, P S Increased productivity 69

Title

Aptitude development of civil engineers for the management of human resources in construction projects **Laufer, A** 209
Auditing large plant engineering projects **Cavallone, S** 39
Automation and robotics in construction: a challenge and a chance for an industry in transition **Bernold, L E** 155
Benefits of project management at the front end **Morgan, B V** 102
Best alternative to international construction dispute resolution **Epling, J A** 217
Comparison of tendering procedures and contractual arrangements **Robinson, J** 19
Conditions affecting projects in less developed countries **Muspratt, M A** 45
Development of project management in Brazil – a historical overview **Benitez Codas, M M** 144
Engineering in Italy **Cavallone, S** 86
Evaluation of a plant reconstruction and extension project **Giege, T and Selin, G** 135
Expert systems in project management **Smith, J U M** 7
Financial guarantees **Chaney, A R** 231
Generalized algorithm for the time analysis of summary activities **Harhalakis, G, Davies, B J and Manzoor, T** 11
Human resources development through education and training **Abdel-Malek, M E** 138
Importance of revenue cost studies in NHS projects **Muir, I D** 98
Increased productivity **Vinje, P S** 69
International engineering project management: key success factors in a changing industry **Navarre, C and Schaan, J -L** 238
Maintenance considerations for new plant **Cockerill, H** 71
Maintenance element of a probabilistic approach to project life cycle costing **Rawlings, P E** 149
Major projects: how to get your planning permission **Capner, G** 80
Matrix approach to project planning design and management **Palmer, C F** 162
Organizing project control systems **Milosevic, D Z** 76
Project management aided by microcomputer **Riis, J, Thorsteinsson, U and Mikkelsen, H** 91
Project management – a firm foundation **Branton, M A and Butler, T J** 221
Project management: the promise for developing countries **Stuckenbruck, L C and Zomorrodian, A** 167
Project organization and contract management **Knoepfel, H and Burger, R** 204
Recursive relation using the critical path to perform time–cost trade-offs **Herring, B E and Murphy, L C** 177
Risk analysis in project management **Franke, A** 29
Role of the merchant banker in projects **Barnett, M** 197
Sequential steps in project execution **Carrier, A** 25
Special conditions for time scheduling of building modernization process **Fiedler, K** 35

Subject

Association news 62, 121, 187, 252
Calendar 64, 128, 192, 255
Comment
Developing theory and practice **Brandenberger, J** 195
Principles into practice for the 1988 Congress **Barnes, M** 67
Project management in Canada **Capello, G G** 3
Project management training **Woodward, J F** 131
Conferences
World development conference 55
Internet News 56, 125, 183, 247
Publications
Construction project management 180
Effective project cost control 181
Goal directed project management 250
Project manpower management: decision-making processes in construction practice 251
The secrets of successful project management 180
